Non-combustible  
Beams and  
Surrounds

# Non-combustible Beams and Surrounds

**YOU WON'T BELIEVE  
IT'S NOT WOOD!**

FocusCast non-combustible beams and surrounds are cast from a fire-proof material.

They are ideal for use when regulations state that the distance from a stove would be too close to use a timber beam.

***"Unbelievably realistic..."***

*FocusCast Grantham in a Character Weathered Finish*

Pages 4 – 7

# Solid Oak Beams and Shelves

**The choice is immense.**

Solid Oak beams and shelves are available in several different profiles and can be supplied at almost any length.

You can select the level of ageing of your beam and choose from a wide selection of finishes.

Pages 8 – 13

# Shelves Complete with Corbels

A selection of traditional shelves available in a wide choice of timber and finishes. All of these can be made to your specific sizes.

Pages 14 – 15

## Contemporary Shelves

Whether it's a floating shelf above your stove or display shelves for books and family treasures – the wide choice of timbers and finishes will ensure you can create your ideal ambience. And we will make them exactly to the size you want!

Pages 16 – 17

## Solid Oak and Painted Stove Surrounds

On pages 19-21 you will discover an attractive choice of oak surrounds each made up from three solid timber beams.

These can be produced in a variety of textures and finishes.

The designs on pages 22-25 are supplied as one-piece surrounds.

Pages 19 – 25

## Beam Covers

Looking to cover a steel beam?

Our beam covers create a superb ambience that will enhance your interior decor.

# FocusCast Non-combustible Surrounds and Beams

FocusCast beams and surrounds are produced using a high-density mineral composite. They are so realistic it's almost impossible to tell them apart from real timber. Their fire-proof qualities allow them to be positioned closer to a stove than a timber beam\*.

There are four distinct ranges:  
Pages 4-5 – The **Character Range**  
Page 6 – The **Smooth Range**  
Page 7 – The **Stone-effect Range**  
Page 7 – The **Tudor Range**

You can add Downlights to all FocusCast Deep Beams from 48" upwards and the Great Beam.

### 6 FIXING SYSTEMS for Deep Beams and Shelves

#### Focus Easy-fix Brackets - 950mm

Nothing can be easier than an Easy-fix!!

The Focus Easy-fix system is a substantial bracket designed to simplify the fitting of the heavier beams and shelves. It comes supplied with plugs and screws.

Once the beam is in place, it is easily secured from underneath with a few turns of an Allen Key.

If the Easy-fix system is not specified: we supply three M10 x 300mm threaded metal bars that screw into pre-drilled holes in the back of the beam.

Consult with your Installer for more information.

## Great Beam and Deep Beam

Great Beams and Deep Beams are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skilful workmanship further enhances the beam with progressive levels of ageing (Round Edge, Rustic, Dressed, Aged, Extremely Aged or even Ancient). Each beam is then beautifully finished with your choice of colour.

**These two Beams are not available in Prime Timber.**

**For a Prime Beam of similar size, the Prestige Beams on page 13 are ideal.**

# Shelves Complete with Corbels

These attractive shelves will enhance any stove installation and can be ordered in a wide variety of timbers and finishes. As every one is hand-made, they can be manufactured to your specific size.

*Classical Shelf: Waxed Oak*

*Edinburgh Shelf: Rustic Oak in a Light/Medium Finish*

*Traditional Shelf: Waxed Oak*

*Aberdeen Shelf: Antique White Finish*

*Morpeth Shelf: Light/Medium Oak*

*Standard Shelf with Corbels: Rustic Oak in a Medium Finish*

*Long Corbel Shelf: Antique White Finish*

*Matlock Shelf and Matlock Mirror: Light Oak with Walnut Detail*

*Vyner Shelf: Light/Medium Oak*

*Corby Shelf: Antique White with Prime Oak Mantel in a Natural Waxed Finish*

*Plain Corbel Shelf: Standard Waxed Pine*

# Contemporary Shelves

A floating shelf above your stove can be an attractive alternative to a timber beam and create a more contemporary appearance.

This could be a design like the Canterbury or Mallaig Shelf in Solid Oak or one of the others shown here that are fabricated using high-quality veneers or painted MDF.

We would recommend using our standard shelf (5½" deep) positioned 6" or more above the opening to provide the necessary clearances.

*Standard Shelf in a White Finish*

*Canterbury Shelf: Waxed Oak*

*Mallaig Shelf: Light/Medium Oak*

*Standard Shelf in a Walnut Finish*

*Alcove Shelves in White Painted Finish*

*Standard Shelves in a Light Oak Finish*

*Standard Shelves in a Walnut Finish*

*What's exciting is that matching shelves can also be made either to fit in the alcoves at each side of your chimney breast or to create a stunning feature on your wall.*

*The front edge of the shelves are normally 70mm high. We can quote on any length and depth so please feel free to use your imagination.*

# Beam Covers

Create a superb ambience in your room with our authentic timber beams.

They are ideal where a steel beam needs to be covered as they can be made to almost any length and dimension and finished to match your fireplace.

Wall and ceiling spars and dado rails further enhance the overall effect.

The room set features a Beam Cover and Spars in Rustic Oak in a Light/Medium Finish with a Beamish Surround, Beamish Mirror and a Hollow Beam Side Table to match.

Great Beams and Deep Beams in 'Rustic', 'Dressed', 'Aged', 'Extremely Aged' and 'Ancient' textures are produced from solid, air-dried European Oak; cut from the heart of the log. They feature natural knots, splits and shakes.

Fascia Beams and Panels and Shelves are produced from kiln-dried European Oak and also may feature some natural knots, splits and shakes.

Hollow Beams and Shelves and also Steel Beam Covers are fabricated from 21mm kiln-dried oak. Thus they can be made to any size and are much lighter in weight than a corresponding solid beam. Other beams, surrounds and shelves in the brochure are manufactured from first quality kiln-dried timber.

Timber being a natural product, is subject to a degree of movement under extreme conditions. Whilst we would expect very few problems we cannot guarantee its performance. Painted shelves and surrounds are manufactured from high quality MDF.

**We offer a made-to-measure service on most of the products within this brochure. Beams can be cut to any length up to 3 metres.**
